# Welcome to the Southern Forests

The clear, crisp air and a magical landscape of magnificent karri, jarrah, marri and tingle forests, vine clad hillsides, fertile orchards, dramatic cliffs, white sandy beaches and an abundance of natural attractions await you on a visit to the Southern Forests.

Located about 300kms south of Perth in the beautiful South West of Western Australia, the Southern Forests are home to many unique and iconic attractions and experiences.

For an estimated 50,000 years various sub groups of the Noongar nation have inhabited the area.

The region begins just outside the town of Manjimup, where rich agricultural lands boast some of the most productive soils in Australia. Further south is the timber town of Pemberton, where you can explore the ancient karri forests along one of the many trails or sample a drop from one of the local wineries. Toward the southern coast lies the town of Northcliffe, gateway to the D'Entrecasteaux National Park and hamlet of Windy Harbour. In the south east corner of the region, surrounded by the Walpole Nornalup National Park lies the idyllic town of Walpole, an ideal place from which to explore the Walpole and Nornalup Inlets and nearby beaches.

# Plan your holiday

## How to get here?

The Southern Forests region is an easy three and a half hour drive south of Perth. Your holiday starts when you see the first big trees.

South West Coach Lines depart from the City Bus Port, Domestic and International Airport Perth on a regular basis. TransWA also operates a bus service from East Perth to the Southern Forests.

# Events

Don't forget to buy some local produce at the Manjimup Farmers Market Every 1st and 3rd Saturday of the month, Manjin Park, 9 am-1 pm.

## FEBRUARY

### Kristofferson Cup

Check out the awesome greens of the Manjimup Country Club at this popular local golf tournament. Third weekend of February.

## MARCH

The first weekend of March is bike and water madness in the Southern Forests. Watch or participate in one of these great events.

### Pemberton Classic

This road race and criterion held over 2 days, takes competitors through the streets of Pemberton and surrounds.

### Karri Cup

WA's largest mountain bike event (up to 100km) held over 2 days in Northcliffe.

### Walpole Regatta

Vibrant yacht race at the Walpole Yacht Club, Coalmine Beach.

The third weekend of March has the **Pioneer Cup Golf Tournament** held at the Walpole Country Club over three days and attracts between 250 and 300 golfers.

**Warren District Agricultural Show** is held in Manjimup on Friday afternoon and all day Saturday where you can enjoy all the pleasure and entertainment of a country show.

## APRIL

### Sunsmart Karri Valley Triathlon

The Annual SunSmart Karri Valley Triathlon runs on the first Saturday of April. Held at the picturesque Karri Valley Resort, this iconic event takes swimmers, bike riders and runners through some magnificent country.

## MAY

### Relentless Blue XC Mtb Race

Cross country mountain biking event held over 3 days at the Pemberton Mountain Bike Park.

### Targa West Car Rally

An exciting tarmac rallying event with modern and classic cars in and around Manjimup and Pemberton on the last weekend of May.

## JUNE

### Manjimup 15,000 Motocross

This international motocross event is a must for all fans of speed and excitement. Annually in June.

### Truffle Kerfuffle

Southern Forests food festival that is a treat for all the senses. Manjimup is fast making a name for itself in the international food world with its high quality truffles. Enjoy premium local wines while you watch what the top chefs can do with this black gold.

## OCTOBER

### JB Ipsen Golf Tournament

Run over the last weekend of October this tournament plays 36 holes over 2 days in Manjimup.

## DECEMBER

### Cherry Harmony Festival

Celebrate the cherry harvest with cooking demonstrations, a street festival, Saturday night concert and a long table lunch on Sunday. Second weekend of December in Manjimup.

# Must do Top 5 for families

1

## Play at the Timber and Heritage Park

The kids will love exploring the park and playing in the new playground. Learn about the fascinating history of Manjimup's logging heritage. Relax and enjoy a meal at the café.

2

## Ride a Tram

The Pemberton tramway rolls its way through the forests down to the Warren River and back. The hour and a half trip is the perfect way to get amongst the trees and is great for all.

3

## Explore Understory

Set amongst the karri, marri and jarrah forests of Northcliffe, this 1.2km walk circuit is the first purpose built walk trail in Australia to permanently feature stunning artworks such as sculpture, music and writing.

## Tree Top Walk

Walk above giant tingle trees at the spectacular Tree Top Walk in the Valley of the Giants. The views of the forest and the Walpole Wilderness are so captivating you will be in awe of the forest giants below your feet.

4

## Explore our Waterways

Take an award winning cruise on either the Donnelly River or the Walpole and Nornalup Inlets Marine Park. Our waters are great for fishing, boating, sailing and swimming. Watch the last rays of sun as it sets over Mandalay Beach or Peaceful Bay.

5

# Must do Top 5 for adventurers

1

## Climb a tree

Scale one or all 3 of the climbing trees in the Southern Forests. The Gloucester, Diamond and Dave Evans Bicentennial trees offer spectacular views over the forests with heights up to a dizzying 68m.

## Paddle our rivers

The Southern Forests are home to stunning river systems that include the Warren, Donnelly, Shannon, Deep and Frankland Rivers. Take a guided tour or bring your own canoe or kayak for this relaxing way to enjoy the forests.

2

## Jump on a bike

A mountain bike is the perfect way to experience the Southern Forests with trails for every level of rider. For the ultimate cycle ride, the Munda Biddi Trail winds its way right through the region.

4

## Walk your walk

Pristine forests & bio-diversity hotspots make the Southern Forests a must for walkers of all levels. The Bibbulmun Track runs right through the region, stopping in towns along the way.

3

## Go 4 wheel driving

Take a road less travelled. A 4WD can take you to some of nature's most inspiring landscapes including the Yeagarup inland dunes, along the beach at the mouth of the Warren River, or down winding tracks to Mandalay Beach.

5

Named for the Noongar Aboriginal words “Manjin” (a broad -leafed edible reed) and “up” (meeting place, or place of), Manjimup was first settled by Thomas Muir who took up land at Deeside in 1856.

86% of the Manjimup Shire is State Forest or conservation Reserve.

Manjimup shopping precinct is the main commercial hub of the region, whilst retaining all the charm of a country town with its many Art Deco façades.

Manjimup is the centre of a thriving fruit and vegetable industry, being the proud birthplace of the delicious Pink Lady apple and is the largest mainland producer of black truffles.

In town is the Manjimup Timber and Heritage Park which gives a fascinating insight into the local industry and logging heritage. Take a stroll through the gardens, watch the kids play in the playground or enjoy the local fare at the café.

Try some of the local produce from the Manjimup Farmers Market, held in the centre of town on the first and third Saturday of each month.

## MANJIMUP

There are many attractions all within a short drive of Manjimup. Only 3kms from town stands the King Jarrah, estimated to be approximately 500 years old. The Four Aces is a row of karri trees about 300 years old. Nearby is One Tree Bridge which, as the name suggests, is a bridge made from a single tree. Stop off for a dip and a picnic at Glenoran Pool or fish for trout and marron in season. Historic Dingup church was built in 1896 and was used both as a school and a church by early settlers.

Visit historic Deanmill, a sawmill village established in 1913 to provide timber railway sleepers for the Trans Australian Railway. Many of the original mill houses are still in use today. About 7 kms from town is Fonty's Pool, a favourite fresh spring water swimming spot. Originally dammed by Archimede Fontanini to irrigate crops, it was opened to the public in 1925 and is now surrounded by beautiful gardens and is a popular spot for recreation.

Between the months of June and August is truffle season and a must do is a truffle hunt, followed by sampling delectable delights and sipping some of the local wines. Call into the Manjimup Visitor Centre for up-to-date information.

Manjimup is the home of the Manjimup 15,000, Western Australia’s largest motocross event at the world-renowned Cosy Creek natural terrain circuit.

Each year Manjimup plays host to some major festivals.

The Truffle Kerfuffle happens in June right at the start of truffle season. Watch chefs from around Australia cook up sensational dishes using seasonal local produce.

The Manjimup Cherry Harmony festival is held in December and culminates in a silver service long table lunch set in the midst of a cherry orchard.

The JB Ipsen Golf Tournament attracts over 400 golfers from around Australia to compete on the tranquil fairways of Manjimup Country Club.

For those with a sense of adventure the Diamond Tree lookout is one of three climbing trees in the Southern Forests and is occasionally still used as a fire lookout . Visitors can climb to the top for spectacular views over the treetops.

# Pemberton

The township of Pemberton lies nestled in a valley surrounded by the spectacular karri forests of the Gloucester National Park, with lush green pastures and acres of rolling vineyards. With its cool Mediterranean climate, crystal clear streams and rich earth, the scenic diversity of Pemberton is awe-inspiring.

Pemberton lies in the heart of tall timber country, and its timber heritage is maintained through several galleries that produce unique hand-crafted works. Beautiful art and craft pieces can also be seen and purchased in the local shops.

Visitors can indulge in the taste sensations offered by restaurants, cafes and wineries, who specialise in fresh gourmet food and home-grown produce.

Recreational activities such as canoeing, fishing, swimming, mountain biking and bushwalking are popular. The town lies on the Bibbulmun Track and Munda Biddi Trail, which wind through some of the most enchanting stretches of karri forest. For something a little more passive take a boat cruise down the Donnelly River.

Pemberton adjoins the Gloucester National Park, with its towering karri trees and clear rivers. The Gloucester National Park also contains The Cascades, where the Lefroy Brook tumbles over a series of rocky shelves, which vary from a gentle flow in mid-summer, to a raging torrent in winter. The rocky rapids provide a place for an outdoor lunch, a leisurely stroll, or a few peaceful hours of fishing.

The district bursts into dazzling colour with the onset of the wildflower season in Spring, lending a magical charm to the area.

It is home to two magnificent climbing trees; the Dave Evans Bicentennial Tree, a dizzying 68 metres high, and the Gloucester Tree standing 61 metres high.

The Gloucester Tree is probably Western Australia's most famous karri tree, towering above the forest surrounding Pemberton. Visitors can climb to the cabin for sensational views of the surrounding karri forest.

The Yeagerup Dunes offer adventurers the chance to witness vast mobile sand dunes which are steadily moving inland swallowing up forest lakes and woodlands as they go.

The Pemberton Tramway wanders its way through the beautiful forests near Pemberton on a 1907 Fremantle replica tram.

For the thrill seeker head down to the purpose built mountain bike terrain park with several trails to build your skills and test your mettle.

Throughout the year Pemberton comes alive with exciting events such as the Pemberton Cycle Classic in March, Karri Valley Triathlon in April, Relentless Blue XC Mtb Race and Targa West rally in May.

The Karri Forest Explorer Drive is a well sign-posted scenic drive that loops through many of Pemberton's attractions, including lookouts and wineries. The Warren National Park covers 2982 hectares in the heart of the karri forest, south-west of Pemberton on the Old Vasse Road. It protects magnificent old growth karri forest along the valley of the Warren River. The one-way Heartbreak and Maidenbush trails follow alongside the Warren River, sometimes meandering level with the water and sometimes looking down from high above. The bubbling rapids of Heartbreak Crossing and the Warren Lookout, offer scenic picnic spots along the trail.

## PEMBERTON

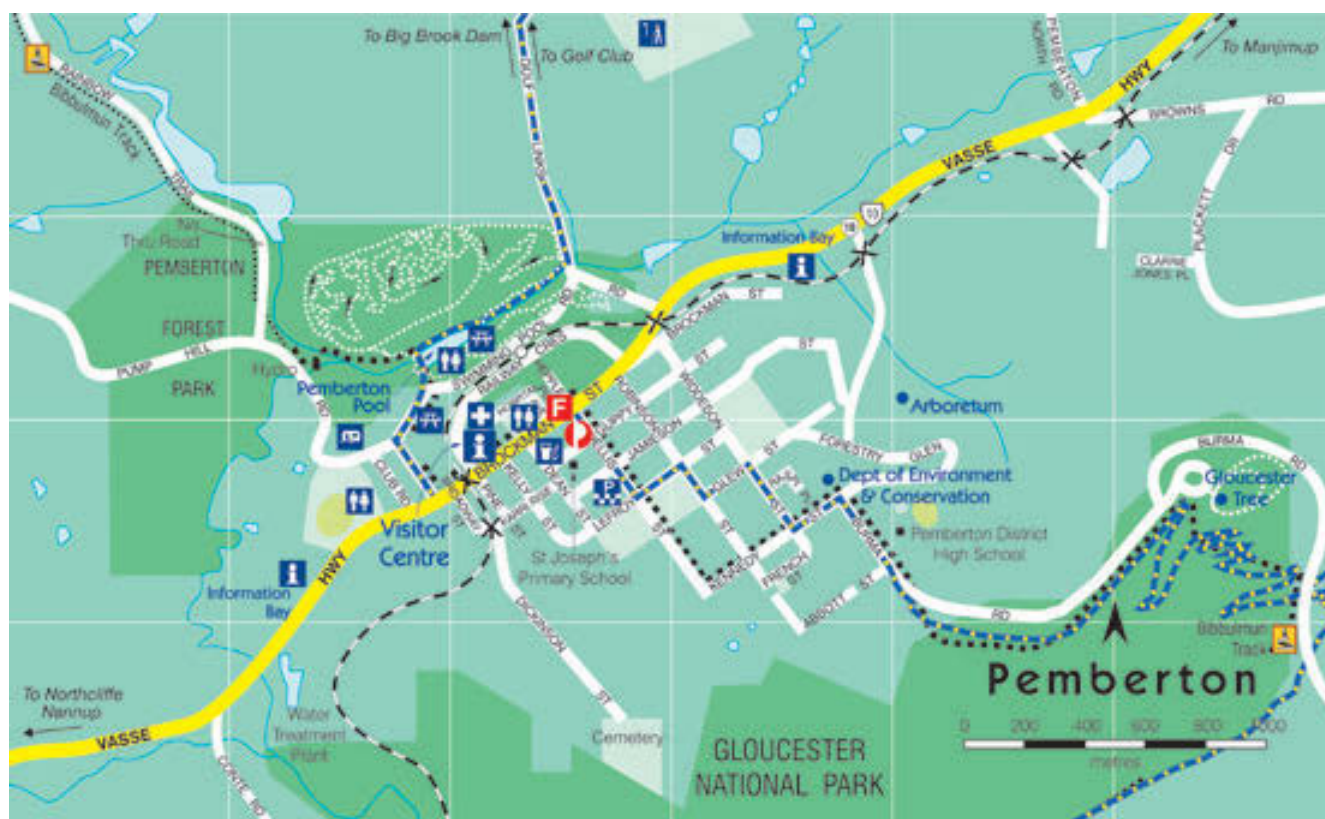

Big Brook dam is a fresh water swimming lake set against the backdrop of magnificent karri forests. It has its own beach and several walking trails around for you to explore.

Freshwater streams and rivers are hidden amongst the Karri forests. Beedelup Falls in the Beedelup National Park has one of the most amazing suspension bridges crossing the falls, as well as forming part of the Bibbulmun Track. Beedelup Falls drops approximately 30 metres, over a series of steep granite rocks. The falls are in full flow during winter and spring and can be viewed year-round along a walk trail and from the two nearby bridges.

With no less than 300 kilometres of freshwater streams in the region, visitors can try their luck for trout. Don't forget to try the regions delicacy, marron. It's a freshwater crayfish that is a unique gourmet treat when enjoyed with a glass or two of fine local wine.

The Pemberton area produces excellent quality wines, and you'll enjoy stopping for tastings at many of the picturesque vineyards. Most offer cellar door sales, and some will tempt you to a delicious meal in a relaxed and charming setting.

# Northcliffe

Northcliffe is centrally situated to get the most out of your holiday. It is surrounded by magnificent national parks and only 20 minutes from the coast - along the only sealed road access in the D'Entrecasteaux National Park.

Towering karri, marri and jarrah, the signature trees of the southern forests, will keep you rubber-necking as will the profusion of tiny orchids or spectacular fungi and then there's the man-made stuff - art, sculpture, top food, great wines.

The road to Windy Harbour takes you past Mt Chudalup, a granite monolith which rises above the surrounding karri forest and coastal heath land. You can climb the rock and take in the 360 degree view and then descend to enjoy the picnic facilities with gas barbecues.

Windy Harbour is a holiday fishing village that reveals a now rare, traditional way of life on the coast. The walk trail linking Windy Harbour and the lighthouse at Point D'Entrecasteaux is well worth the effort. You'll love the view and the additional trail to Tookalup and Salmon Beach gives further spectacular views. And, to make life easy, you can even drive a car to each of the lookout points. If you've got a 4WD, then a

whole lot more of D'Entrecasteaux National Park and the south coast beaches are open to you, but... remember to buy a National Park Pass.

Passes are available at the Northcliffe Visitor Centre. You should also check which tracks are open.

From Windy Harbour you can enjoy a variety of fishing from the beaches of the D'Entrecasteaux National Park or by boat. But beware of the ocean conditions as the Southern Ocean is usually rough and can be treacherous. Brown and rainbow trout and Redfin Perch are in the Gardner and Warren

Rivers. You need a licence to catch these fresh-water fish, licences can be obtained from post offices. Best of all are marron, the world's premier crayfish. Found only in the fresh water streams and lakes of the south-west, marron are truly a gourmet delicacy. The amateur fishing season for marron is short and varies annually (yes, you need a licence) and your best chance of eating one of these superb animals is if you buy one from a licensed outlet.

Northcliffe's soils are extraordinarily diverse. You can go from tall karris to sand plain: from wetland to granite outcrops in a matter of metres. This makes us the core of this world-recognised biodiversity hotspot. Nothing, for example, gets more amazingly specialised than the reproduction strategies of many of our orchids. (Yes, you can ask us at the Visitor Centre).

If it's bright colour you like, you can't beat the massed intensity of our spring flowers. None of your delicate mauves and pinks. (Well yes there are, but you'll struggle to notice them against the full blooded reds, sky blue, whites and golds of the many species.

Understory is a nationally unique art in nature experience that everyone can enjoy. Artworks are located along a 1.2km walk trail through pristine native forest. Sculptures, stories, poetry and music explore our relationship with nature and the 'spirit of place'. Over 50 nationally and internationally renowned creative professionals have participated in the project. New artworks are added regularly to ensure there is always something fresh for you to experience.

You can spend a fascinating hour walking the trail and listening to a range of five audio tours. It is accessed through the Northcliffe Visitor Centre. Open Daily 9am - 4pm (last entry 3pm).

The Karri Cup Challenge is Western Australia's largest Mountain Bike event. Held on the March long weekend each year, the challenge starts and finishes in Northcliffe. The event incorporates 25, 50 and 100km versions to cater for teams and a range of skills. It winds through rapidly changing terrain. More than 100 community volunteers feed, water and care for over 500 riders.

For more information visit [www.karricup.com.au](http://www.karricup.com.au).

If you're interested in local history, visit the Northcliffe Pioneer Museum for a comprehensive collection of material from Group Settlement days and beyond.

For further information about walk trails and other national parks near Northcliffe, especially Shannon National Park, the Bibbulmun Track and the Munda Biddi Trail, see pages 21 to 23. Call in at the Northcliffe Visitor Centre for up-to-date information on track conditions, what's in flower and where the fish are biting.

# Walpole

Set on the tranquil waters of the Walpole Inlet, Walpole is an idyllic township, offering a wide range of activities for visitors, from swimming, boating, sailing, inlet cruises and fishing to bush walking, mountain biking, scenic drives and climbing.

Walpole Inlet is a small estuary connected through a narrow channel with the bigger and deeper Nornalup Inlet. This beautiful marine park is the only place in Australia's South West where Karri and Tingle forest lap the waters edge.

Set on the Nornalup Inlet and part of the Walpole and Nornalup Inlets Marine Park Coalmine Beach is a popular swimming beach for all ages. It is accessed by the Knoll Drive two and a half kilometres east of Walpole. It also provides world class sailing, kite surfing and has small boat launching facilities. Continuing along Knoll Drive take in the knoll peninsula that divides the Nornalup and Walpole inlets. Stop and take in the natural beauty of forest and water at the Channels Picnic Area along Knoll Drive.

Opposite Knoll Drive, Hilltop Road winds through an exceptional red tingle and Karri forest. Two kilometres along this one way road

brings you to a spectacular lookout over the Frankland River, Nornalup Inlet and Southern Ocean. A further three kilometres along delivers you to the car park of the Giant Tingle Tree. From here starts an 800m circular board-walked forest walk which leads down to the Giant Tingle Tree. This unique specimen is thought to be over 450 years old, and at 24 metres in circumference at its base, is the largest living girthed eucalypt known in the world.

Continuing on to the Frankland River, Circular Pool is a seasonal river pool and popular picnic spot.

Raging torrents of water after winter rains cause masses of froth to form nature's cappuccino. In contrast summer provides visitors with a large beautiful tranquil pool. Universally accessible paths lead to two viewing platforms that allow great photo opportunities.

Walpole is surrounded by the 18,000 hectare Walpole-Nornalup National Park, home to the not-to-be-missed Valley of the Giants Tree Top Walk. The 600 metre walkway rises 40 metres above the forest floor and is a breathtaking experience with a bird's eye view of the forest. There is a meandering boardwalk that takes visitors through a grove of veteran tingle trees called the Ancient Empire.

This walk will show, at close hand, some of the unique shapes of these giant trees. You can actually walk through the hollowed out trunk of one tree.

Also within the national park Conspicuous Cliff Beach offers stunning views of the rugged south coast. It's spectacular limestone cliffs are a photographers delight, as is the surf that pounds the shore at this pristine beach. The beach is also popular with fishermen and surfers. A 200 metre board-walk connects the carpark with the beach. Visitors are rewarded with panoramic views of the southern coastline from the whale watch lookouts. The Bibbulmun Track passes through this site to either Peaceful Bay or the Valley of the Giants Tree Top Walk. This unique beach is 14.5km east of Walpole on Conspicuous Beach Road, easily accessible by 2 wheel drive vehicles. This road will take you through coastal heath land national park, which is the sole wild habitat of the Red Flowering Gum (*Corymbia Ficifolia*) in Western Australia. The blossoms are usually at their peak in January with blossoms ranging in shades of vermilion through, scarlet, crimson, orange and pink.

Mount Frankland is a site not to be missed and is located in the heart of the Walpole Wilderness, 29 kilometres north east of Walpole. The 'Wilderness View' is a spectacular raised walkway completed in 2013 offering visitors of all abilities panoramic views of core wilderness. There is also a path to the summit of this impressive granite peak, where walkers are rewarded with expansive vistas over the Walpole Wilderness and a less formal walking track around the base of the granite outcrop where you can take in the sights, smells and sounds of the forest. Mt Frankland is one of three sites that make up the Walpole Wilderness Discovery Centre. If you are looking for somewhere to camp nearby, there is Fernhook Falls 20km west of Mt Frankland that is an adventurer's playground with opportunities for white water kayaking and picturesque walk trails.

# WALPOLE

Twelve kilometres west of Walpole is the turn-off to Mandalay Beach with its spectacular coastline and site of the 1911 shipwreck of the Norwegian barque 'Mandalay' that the beach was named after. This stretch of coastline offers wonderful fishing, great views of Chatham Island and occasionally exposes parts of the Mandalay shipwreck.

The stirring Southern Ocean is a natural wonder to be appreciated from the white sandy Mandalay Beach. Stroll along the boardwalk and read the interpretive information about the wreck which can sometimes be seen in the sand or simply enjoy the moods of the Southern Ocean.

The tall trees and spectacular waterways sit against a backdrop of breathtaking coastal scenery portraying the essence of Walpole.

With so much of the region being classified as National Park, the Southern Forests has some of the most pristine forests, dramatic coastlines and diverse flora and fauna to be found in Western Australia. There are so many ways to enjoy our National Parks, whichever you choose, the stunning natural beauty of the Southern Forests will leave you with a sense of awe and a greater appreciation of this ancient landscape.

# National Parks

## Beedelup National Park

Beedelup National Park is just a short drive from Pemberton. A highlight of the park is the Beedelup Falls. Ensure you bring your camera to capture the beauty of the falls which are spectacular in late winter when the brook is in full flow. In the springtime, enjoy some of the prolific wildflowers in the area.

Close by is a suspension bridge crossing over the Beedelup Brook which provides superb views of the falls. You can walk from the park to the Karri Valley Resort along a section of the Bibbulmun Track and enjoy the view over Beedelup Lake. The park has sheltered picnic facilities if the weather is wet.

## Warren National Park

At Warren National Park near Pemberton you can go bush walking through ancient forests of karri trees, some nearly 90 metres high.

Walk trails wind through the forest floor – you'll feel dwarfed by these old growth giants. You can climb the Dave Evans Bicentennial, which offers glorious views from the viewing platform. Canoeing is a favourite activity on the tree-lined Warren River, while picnic and barbecue facilities make this a popular place to relax in nature. The Heartbreak Trail is a spectacular drive through the park and follows the Warren River. There are designated camping spots on this trail and popular fishing and marroning spots in season.

## D'Entrecasteaux National Park

Remote and rugged D'Entrecasteaux National Park

combines pristine beaches and tall tree forests in a wild and spectacular landscape along the southern coastline near Northcliffe and Pemberton. Here, you can go camping and four wheel driving or bush walking through dense forest and coastal tracks.

The beach fishing is first rate, or you can try one of the several river and inlet systems throughout the park. If you're journeying through this part of the world be sure to take a map and compass – its wild country!

Yeagarup Dunes near Pemberton edge onto a thick jarrah forest – ride the dunes in a four wheel drive then go kite flying or fishing on the beach.

In spring you'll be rewarded with beautiful coastal wildflowers.

Windy Harbour, Salmon Beach, and Broke Inlet are the only coastal areas which are accessible by conventional vehicle. There are camp facilities at Yeagarup Lake, Yeagarup Beach, Carey Brook, Crystal Springs and Banksia Camp. You can access D'Entrecasteaux National Park from Pemberton, Northcliffe, Windy Harbour or Walpole.

### Shannon National Park

Shannon National Park is set in some of the most magnificent karri country in Western Australia's Southern Forests. The park covers the entire catchment of the Shannon River, from its headwaters to the Southern Ocean. Part of the Walpole Wilderness, the park covers 53,500 hectares, including old growth and regrowth karri forests and biologically-rich heathlands and wetlands.

The Shannon area was largely untouched until the 1940s, when an acute shortage of timber after World War II prompted the State Government to establish a timber mill there. The information shelter at the Shannon recreation area is near the site of the old mill. The town was built across the highway from where the camping ground now stands. A dam was built upstream from the mill site in 1949 to ensure summer water supplies. The picturesque location meant it also became a popular swimming and marroning place (in season). Today, only traces of the mill town can be seen. You can also see the remains of old buildings and railway lines along the Shannon Dam walk trail.

### Gloucester National Park

The Gloucester Tree, in Gloucester National Park, is probably Western Australia's most famous karri tree. This 61-metre-high giant towers above the forest surrounding Pemberton. In the past, foresters maintained a regular fire lookout from its lofty crown. Today, visitors climb to the lookout platform in its upper branches for sensational views of the surrounding karri forest.

However, there is more to the Gloucester National Park than the lookout. One very popular recreation site nearby is The Cascades. Here, the Lefroy Brook tumbles over a series of rocky shelves, which vary from a gentle flow in mid-summer to a raging torrent in winter.

### Mount Frankland National Park

Mount Frankland National Park is situated north of Walpole and covers an area of approximately 31,000 hectares. The park contains a mix of karri, jarrah and tingle forest as well as expanses of treeless heathland. It is part of the Walpole Wilderness and parts of the park are rugged and wild, with limited access, while the newly constructed 'Wilderness View' lookout at Mt Frankland offers universal access to panoramic wilderness views. Mount Frankland is the dominant feature of the park and offers sweeping views of the surrounding karri, tingle and jarrah forests.

Mount Frankland National Park has a rich array of forest birds, from eagles to colourful fairy wrens and robins. Short walks in any part of the park should reveal at least 20 species at any time of the year. The adjacent Mt Frankland South National Park includes the ever popular camping and picnic areas at Fernhook Falls as well as the forest art walk at Swarbrick which is one of three sites that make up the Walpole Wilderness Discovery Centre.

### Walpole-Nornalup National Park

Walpole-Nornalup National Park contains many pristine forests and areas with little evidence of human activity. The rugged coastline, peaceful inlets and rivers are a major feature of the park's beauty. The park is probably best known for the huge buttressed red tingle trees, which are unique to the Walpole area. The park's vegetation ranges from large karri and tingle trees, to the sedge lands. The park has at least 698 native species including many that need special requirements such as high rainfall. The park also has 104 species of orchids and 4 eucalyptus species which are endemic to the region, which includes the red tingle and the red flowering gum. Whether swollen by winter rains or a placid summer pool, Circular Pool is a delightful place to enjoy the forest. You can picnic, marron in season, canoe, take photos or simply experience the magnificent forests.

# Trails

With such a large number of National Parks and recreation reserves, there's always a new trail to discover just around the corner. No matter whether you want to get out and explore by walking, cycling, 4WD or canoeing, or prefer exploring from the comfort of your car, there's bound to be a trail to take your fancy.

The majesty of the Southern Forests is in its full glory along the Karri Forest Explorer Drive, D'Entrecasteaux, the Knolls or Great Forest Tree Drives, suitable for all vehicles, with spectacular examples of flora species and a tapestry of colour when the wildflowers are in bloom. A 4WD can take you to some of nature's most awe-inspiring vistas including the Yeagarup dunes, to the beach at the mouth of the Warren River, or down windy tracks to Clifty Head or Banksia Camp.

Named after the Pibulmun tribe of the Noongar people the Bibbulmun Track is one of the world's great long distance walk trails, passing right through the Southern Forests. Hike for a day from any of the four towns, or take a multi-day adventure staying in one of the huts. There are many other bushwalks throughout the region, all within easy reach of one of the towns.

If you prefer a more gentle way to explore, drop a canoe or kayak in at Drafty's campsite on the Warren River and meander along in wonder as you pass through misty valleys and towering trees. The Walpole and Nornalup Inlets Marine Park, Donnelly, Shannon, Deep and Frankland Rivers are perfect for paddling or sailing and wonderful to explore with sandy beaches, ancient cliffs and amazing birdlife.

The Munda Biddi Trail (which means path through the forest in the Noongar Aboriginal language) is fast becoming a world-class nature-based cycling experience. There are few places left in the world where a dedicated bike trail could be built through a largely natural corridor. Make sure to take a spin at the Pemberton Mountain Bike Park, with a range of cross country trails, pump and jump track for all levels of rider. Northcliffe has a range of mountain bike trails like the Boorara Championship Trail and of course is host to the annual Karri Cup.

 Clover Cottage Country Retreat

Manjimup

The charm of Clover Cottage with its cottage gardens, gnarled old trees and misty river valley setting provide an aura of romance and tranquility of a bygone era. The superbly built and appointed limestone chalets look down onto the trout filled lake and the Warren River forest valley. The cosy wood fire and private spa make it the perfect place for a romantic getaway. On the large verandah you can relax in a hammock enjoy a barbecue or dine out, while enjoying the theatre of the bush. Just bring your clothes, food, bottle of wine, walking shoes and a good book. For the energetic, enjoy canoeing on the river and fishing on the trout lakes in front of the cottages. For the kids it's a great farm stay with sheep, goats, donkeys and chooks to feed.

 Nyamup Mill Town Holiday Village

**NYAMUP**  
 MILL TOWN  
 HOLIDAY VILLAGE

*Step back and relax at an earlier time's unhurried pace*

**Manjimup**

A Tranquil Family Getaway.

Nyamup was established as a timber mill town in 1939 and ceased producing timber in 1969. Nyamup Mill Town Holiday Village is now a tranquil town surrounded by spectacular Mann and Karri Forests. The Wigarup River runs through Nyamup creating a wonderland of native flora and fauna throughout the village. Kids will love the wildlife, including Kangaroos and Emus which can be hand fed, plus the abundance of vibrant birdlife that can be spotted dancing amongst the expanse of trees. The self contained cottages are the original timber workers homes, reflecting a bygone era. Cottages are fitted out to cater for a varied number of guests, but you will need to bring your own linen. Nyamup is 320kms from Perth, approximately three and a half hours drive towards Manjimup. From Manjimup turn left onto Brain Street (which becomes Muirs Highway) then follow the Highway for 22kms and turn left at Nyamup Road.

ATTRACTIONS & EVENTS

ATTRACTIONS & EVENTS

King Trout and Marron Farm Cafe

**Pemberton**

Located 5 minutes from Pemberton, King Trout offers lake fishing for the whole family. We have all the fishing gear you need to catch your own lunch!

Enjoy fresh seasonal meals from our fully licensed cafe whilst you take in the sights and sounds of the forest.

Open 9-6 weekends, public holidays and school holidays. Group bookings welcome.

Lot 11 Northcliffe Road, Pemberton WA 6260  
(08) 9776 1352

The Painted Tree Gallery

# The Painted Tree Gallery

Northcliffe Info & Visitor Centre [www.southernforestarts.com.au](http://www.southernforestarts.com.au)

An ever changing display of unique artworks. Open daily 9am-4pm

Northcliffe Pioneer Museum

**Northcliffe**

Open daily 10 am to 3 pm.  
Donation by gold coin.

One of the best displays you will find anywhere of Group Settlers' life in the 1920s. Visit an early school or inspect the machinery of the 1940s timber industry. Wander around the George Gardner Rock and Mineral Collection with specimens and fossils from all over Australia. The museum is in the centre of town opposite the Post Office and close to the local cafe and town and rural accommodation.

Wheatley Coast Road, Northcliffe WA 6262
